DETAILED ACTION

Allowable Subject Matter

1. Claims 1-12 allowed.

The following is an examiner's statement of reasons for allowance:

The prior art of record, alone or in combination, among other things does not teach transmitting descriptions of the relevant zones, addresses of the services linked to the relevant zones, and descriptions and addresses of services of neighboring relevant zones while transmitting the services linked to a plurality of relevant zones that overlap.

Navigation patents(e.g. GPS) were used which teaches transmitting descriptions and addresses of neighboring zone but fail to teach, as applicant argued in the appeal brief(page 6-7), transmitting descriptions of relevant zones and descriptions of services of neighboring relevant zones while transmitting the services linked to a plurality of relevant zones that overlap.

Furthermore, Handoff patents were analyzed but they fail to teach transmitting descriptions and addresses of services of neighboring zones.

A 103 rejection would not be an obvious modification because the claims require, among other things, that while transmitting the services linked to overlapping relevant zones, a transmission of descriptions of relevant zones and descriptions and addresses of services of neighboring relevant zones needs to occur.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
